unique piece of art.

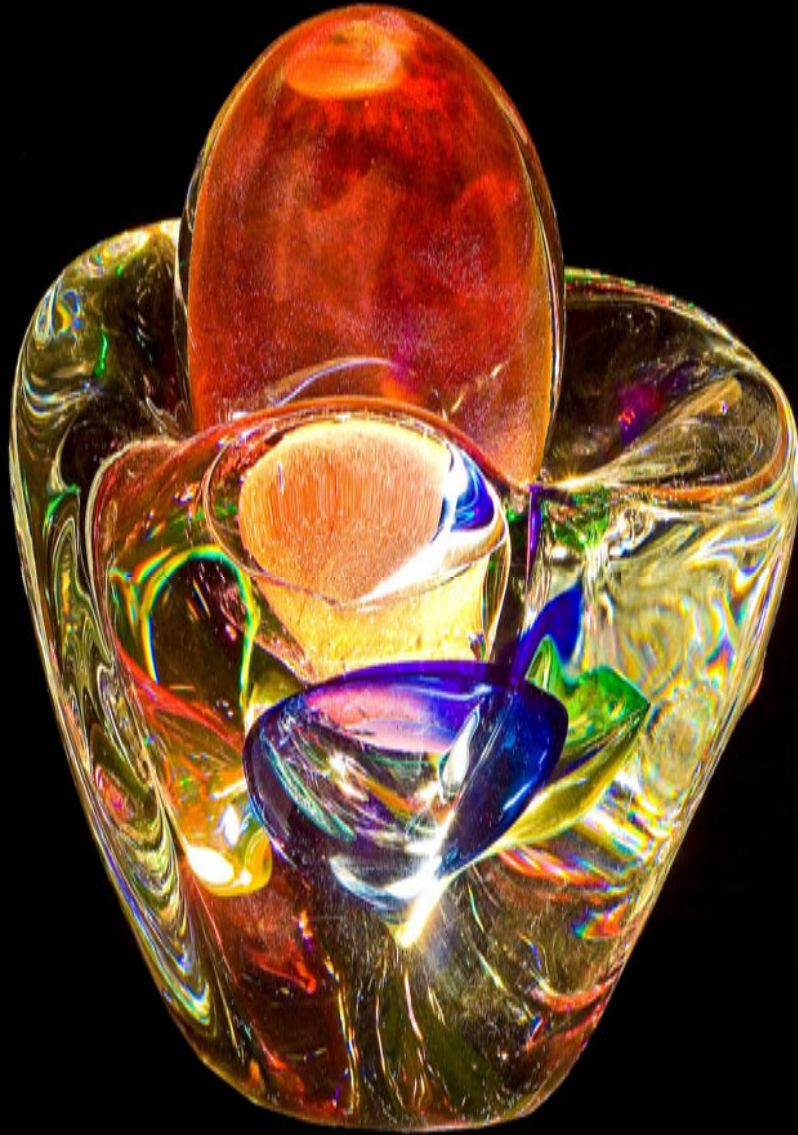

Influenza virus, h 15cm

Vironova AB is a Swedish biotechnology company that develops and markets virus analysis technologies. Based on automated image analysis it provides more efficient antiviral research and virus diagnostics.

Vironova is currently working on three antiviral drug projects against HIV, Influenza and Herpes.

Vase Herpes virus, h 29 cm

It all started when the famous artist Jim Johnson rang the founder and owner of Vironova AB, Mohammed Homman, to ask if he could buy shares in Vironova.

A red blood cell is born II, h10 cm
